

Weekly Progress Report (Form-3)

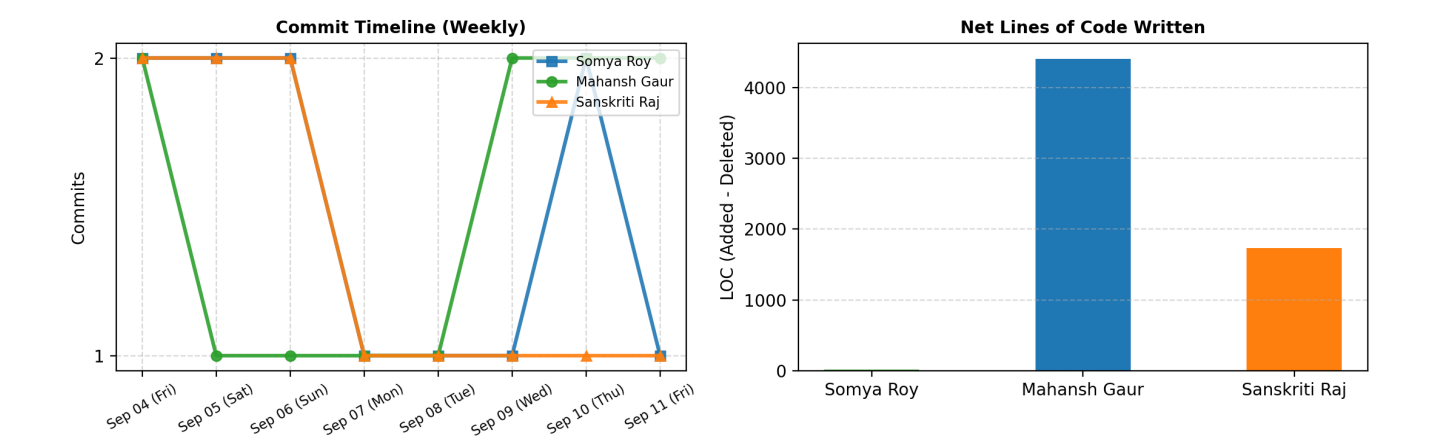

Project Repository: AdityaScan-FYP | Branch: main

Evaluation Window: Last 7 Days (Since 2026-09-04) | Generated On: September 11, 2026

1. Individual Contribution Breakdown

| Student Name  | Commits (%) | Lines Added | Lines Deleted | Net LOC | Active Days |
|---------------|-------------|-------------|---------------|---------|-------------|
| Somya Roy     | 12 (34.3%)  | +437        | -424          | 13      | 8 days      |
| Mahansh Gaur  | 12 (34.3%)  | +5,273      | -861          | 4,412   | 8 days      |
| Sanskriti Raj | 11 (31.4%)  | +2,189      | -453          | 1,736   | 8 days      |

2. Visual Trends & Volume

3. Detailed Commit Logs & Mentor Evaluation (Weekly)

Student: Somya Roy — 12 commit(s)

| Date       | Hash    | Commit Message                                                                                               | Mentor Marks (/10) |
|------------|---------|--------------------------------------------------------------------------------------------------------------|--------------------|
| 2026-09-11 | eacb88b | refactor(api): clean up demo scenario injector state resets and timers                                       | ____ / 10          |
| 2026-09-10 | 1634f87 | feat(ui): add satellite safe-mode procedure checklist modal                                                  |                    |
| 2026-09-10 | f0ae9e9 | refactor(ui): streamline WebSocket state buffering and resolve re-render lag                                 |                    |
| 2026-09-09 | d1b3825 | feat(api): build judge demonstration scenario runner with May 2024 superstorm replay                         |                    |
| 2026-09-08 | d3707d5 | refactor(api): optimize WebSocket connection manager and broadcast loop efficiency                           |                    |
| 2026-09-07 | dff5d83 | feat(ui): add Indian space constellation (NavIC/GSAT) radiation impact alerts and deprecate draft components |                    |
| 2026-09-06 | 2e59ec0 | feat(ui): integrate real-time WebSocket client hook with automated reconnect                                 |                    |
| 2026-09-06 | 7f6bbb7 | feat(ui): prototype static modal markup for satellite constellation notifications                            |                    |
| 2026-09-05 | 57a4376 | feat(api): implement WebSocket /ws/live telemetry stream for sub-second updates                              |                    |
| 2026-09-05 | ceb5dfa | feat(api): prototype multithreaded WebSocket broadcast server mock                                           |                    |
| 2026-09-04 | 81eaed0 | refactor(ui): optimize CSS animation keyframes and prune redundant classes                                   |                    |
| 2026-09-04 | 8eb4ac3 | feat(ui): add flare classification reference badges (C-class, M-class, X-class)                              |                    |

**Student: Mahansh Gaur — 12 commit(s)**

| Date       | Hash    | Commit Message                                                                                                       | Mentor Marks (/10) |
|------------|---------|----------------------------------------------------------------------------------------------------------------------|--------------------|
| 2026-09-11 | d3c1fdb | refactor(mlops): clean up training runner environment variables and logging                                          | ____ / 10          |
| 2026-09-11 | 019af1d | feat(mlops): configure GPU batch training partitions for May 2024 storm                                              |                    |
| 2026-09-10 | 034ece2 | feat(mlops): add balanced dataset manifest generator and window configs                                              |                    |
| 2026-09-10 | 5c33089 | feat(mlops): create reproducible Kaggle/AWS GPU training orchestration script                                        |                    |
| 2026-09-09 | ded9233 | feat(training): add incremental real training script for continuous solar updates                                    |                    |
| 2026-09-09 | 759e4c6 | feat(ml): implement spatial graph neural network for active region interactions                                      |                    |
| 2026-09-08 | 5cba351 | refactor(training): replace draft chunk cache with PyTorch weighted random samplers and delete obsolete cache module |                    |
| 2026-09-07 | bae4b53 | feat(training): prototype disk-based dataset chunk cache for Aditya-L1 data                                          |                    |
| 2026-09-06 | 195d0ad | refactor(training): replace monolithic draft with multi-phase PRADAN training pipeline and clean up prototype        |                    |
| 2026-09-05 | d870577 | feat(training): prototype monolithic real PRADAN training script with in-memory loader                               |                    |
| 2026-09-04 | 1c1da71 | perf(training): apply chronological train/val splitting to eliminate data leakage                                    |                    |
| 2026-09-04 | e12279b | ci(workflow): add automated Friday weekly reporting workflow                                                         |                    |

**Student: Sanskriti Raj — 11 commit(s)**

| Date       | Hash    | Commit Message                                                                                        | Mentor Marks (/10) |
|------------|---------|-------------------------------------------------------------------------------------------------------|--------------------|
| 2026-09-11 | 59e12b5 | perf(ingestion): add concurrent file downloading in PRADAN batch downloader                           | ____ / 10          |
| 2026-09-10 | 92e4a72 | refactor(ingestion): vectorize magnetometer baseline correction and outlier rejection                 |                    |
| 2026-09-09 | 2e247b6 | refactor(ingestion): optimize ASPEX energy bin parsing and clean up temp arrays                       |                    |
| 2026-09-08 | 8cc2b94 | feat(ingestion): implement automated PRADAN portal authenticated session handler                      |                    |
| 2026-09-07 | 8c2351c | feat(ingestion): add SUIT UV filtergram loader for chromospheric imaging                              |                    |
| 2026-09-06 | 3da6047 | refactor(ingestion): replace draft sensor readers with vectorized ASPEX and MAG calibration pipelines |                    |
| 2026-09-06 | c39e5cf | feat(ingestion): prototype triaxial magnetometer coordinate transformation matrix                     |                    |
| 2026-09-05 | 79c02b8 | feat(ingestion): implement Aditya-L1 ASPEX/SWIS proton/alpha wind sensor loader                       |                    |
| 2026-09-05 | 2ade506 | feat(ingestion): prototype ASCII log reader for ASPEX/SWIS solar wind sensor test data                |                    |
| 2026-09-04 | 3c6628e | perf(data): configure balanced multi-month manifest download ranges                                   |                    |
| 2026-09-04 | e9b25cb | feat(ingestion): add exponential backoff retry logic to NOAA live fetcher                             |                    |
